counties in Obio the vote stands: Lin-482; Net Republican gain in 79 counties 19,123.

The nine countles to hear from gave, in October, three Republican majority. Supposing them to vote as then, Lincoln's majority in Ohio must be 44,564.acainst 25,278 for MURRAY, Attorney General.

The total vote of Ohio will be 425,000, an increase over October of over 12,000 .-BELL's vote will be shout 10,000, and BRECKINEIDGE'S about the same.

BE "AN ABOLITIONIST COLORED MAN."

So Much for Cutting Down a Lincoln Pole.—About four months ago a little squad of Republicans in the town of Occoquen, Prince William county, Eastern Virginia, erected a Lincoln and Hamlin pole. The incensed slaveholders raised a mob and cut down the pole directly under the eyes of Gov. LETCHER's troops, called out to prewent rioting. At the recent Presidential election, the Republicans avenged themselves by carrying the entire precinct over all competitors. The rote stood: Lincoln 55; BERGKINEIDGE 51; BELL 48; DOUGLAS 1. Thus Lincoln had a majority of three over | majorities in Monroe County: BRECKIERIDGE and DOUGLAS combined .-Pretty good that, for a town in a county containing three thousand slaves.

FURION BRATES IN NEW JERGEY !- It turns out that New Juneaux, after all, gives | District Attorney, C. E. Rice, (no opponent) four votes, (a majority) for Lincoln, to three for somebody else-probably Douglas. 554; for Clerk of the Court, E. Nutting, 531; The "Fusionists" were badly "scooped."--The straight Douglasticket polled just votes for Coroner, C. W. McMillan, 564. enough to defeat every man on the "Fusion" ticket, except three Douglas electors. That was decidedly smart. New JERSET is up to a thing, or two, notwithstanding Camden and Amboy.

The Victory IN New Jersey.—Complete returns from New Jersey show that Lincoln has carried but five of the nineteen counties in New Jersey. The majority against him is 5,040 on the popular vote. The three Douglas electors on the straight ticket have 8000 majority.—News, of yesterday. Scarcely. Their reported majority is from

three, to four thousand; and for that they are indebted to the Barckingings and Ball men. Lincoln carries a majority of the Board of Supervisors, now in session, this electors. This is, indeed, a "victory in New | morning elected Miss HATTIE SMITH Clerk Jersey.1: We are indebted to "Fusion" for of the Board of Supervisors. Miss S. waz the result. LA CROSSE COUNTY OFFICIAL.-The La and is perfectly competent to fill the office."

Crosse Union & Democrat states the vote of | The Board of Supervisors of Genesee Co. La Crosse as follows:

Lincoln 1,477; Donglas 765; Breckinridge 65; Bell 18. Lincoln over Douglas 712. Lincoln over all 619.

Hanchett, (Rep.) for Congress, has 673 majority, and Messmore (Rep.) for Assembly, about the same. Great for La Crosse !

Two "TRAS" OVERBOARD,-The Charleston Mercury says that South Carolina has that this gentleman is injured much more has thrown the H. S. and T. overboard. H. 5. and T. were the famous originators of "Fusion" in New York.

No one, authorized to say it, has ever informed me that all that was necessary for me to do to secure my release, was "to state to the President the fact of his (my)

It was suggested to me last summer, by Moses M. But the misrepresentation of the N. Y. That if the object of the government, in imprisoning me, was to vindicate an obnoxious statute, that was done, long ago, as fully as it could be by my perpetual imprisonment.

But if its object is to compel me to acknowledge the Fuglitive act as a constitutional law, that it is not the province of Government to control men's opinious, and that no length of imprisonment can obsuge my belief, that the Fuglitive Act of 1850 is a violation of the Indiamental law of the land.

What then, we ask, was the occasion, it he concluded to address the President at all, to accompany his petition the U. S. Senate and is not a candidate for the distinguished honor. As to "Know-the distinguished honor. As to "Know-cana" of Wisconsin, there is not as much of it in the whole State, as there is in any one it in the whole State, as there is in any one callering of the Albany Express.

Tequired only to state to the President the fact of his inability to pay his fine to secure dishonest. It is to ask him either to modify or deny opinions which he has put ou recorded to address the President at all, to accompany his petition in every possible form, and of which no decently infermed man can be ignorant. It is more. It is to ask the Republican party, to the matter which could not fail to be offered with matter which could not fail to be offered with matter which could not fail to be offered with matter which could not fail to be offered with matter which could not fail to be offered with matter which could not fail to be offered by the petition. Mr. Booth could have retained all his opinions and all his purpowers of November 6th. That work was, doubtless, a revolution in the political term of the disconsin, if he concluded to address the president at all, to accompany his petition of every possible form, and of which no decently infermed man can be ignorant. It is to ask the Republican every possible form, and of which no decently infermed man can be ignored. It is mov making a full proclamation of it to the Presidencies of the Government, but a revolution dent. There was nothing that we know of constitutionally accomplished, and will be constitutionally carried out. political power of the Government, which has now been forty-years steadily Pro-Sis-very, will be reversed. Its constitutional functions will be exercised in favor of free-Insver-will.

To the rest of the Free Democrat's criticisms, my statement to the President, a copy of which I subjoin, is a sufficient answer. I am willing that it should be a part of my record, now and forever. It was written in anticipation of just what has happened, and to put an end to the reiterated statements of misled Republicans, that I could be released at any time, by asking to be.

Thanksoiving in Canada.—We believe the good old Yankee custom of keeping a Thanksgiving Day, has never been imitated by our Canadian neighbors. As an evidence, therefore, that Christian civilization of the Yankee pattern is being extended to our brethren "over the line," we are gratified to observe the following announcement in the Toronto Leader of Thursday:

"We are happy to understand that it is the intention of the government to appoint a day of National Thanksgiving for the abundant harvest and the returning prosperity of the constity." We feel assured that all classes lievs that he can have crossed the triny deep to Europe, at a time when the sunny section of his nativity may at any moment need his trenchant arm to point with his sword the road of her conquering legions as they march Northward to camp in New York. This destination, then, being placed out of the question, many believe that he retired to Coney Island, which clam-producing region has been formally dissevered from the United States by the decree of Gov. Gill. Davis, bearing date last Wednesday morning.—

On the contrary, the only reliable information ever communicated to me on the subject, was the letter of Attorney General Black to District letter of Attorney General Black to District Attorney Upham, last April or May, in reply to petitions of citizens and officials, that I must, under oath, state that I was not able to pay my fine and costs, and also the grounds on which I asked to be discharged from imprisonment, before the subject could even be considered. And the statements made by letter writers from Washington, as well as the declarations of purty organs at home, led me to believe, that nothing that I could consistently and homorably say—that nothing but a complete surrender of lifecherished principles—could procure my replease. We infer from the above that Mr. Booth's application is a failure, and the O. P. F. refuses to remit the fine and grant pardon.

We are informed, and have no reason to doubt the information, that Mr. Booth was required only to state to the President the fact of his inability to pay his fine to seome his release. What then, we ask, was the

If not, let him go to the borders of his several fields, where the plow and hoe do not reach, and where the turf has become thick and rich; let him cart off an abundance of this, and stack it up under the bard where it will be kept dry. As his manure, is thrown into the cellar, let his also go in to keep it company, a little at a time, and often.

Or, laoking such turf, let him use forest leaves, rotten chips, scrapings from the road side, or saw dust, or spent tan bark. Be strictled of the lungs, and brings about a rapid con valescence.

The attack on the Taku forts was made en the morning of the 21st inst. Four English and four French gun boats, drew the attention of the forts lower down on the northern bank, when the batteries opened. The execution of the Armstrong guns was found to be tremendous, as the shells pierced and burst the walls of the fort and an awful explosion shock the ground; but smid the ruins the Tartars stood to their guns.

When the field pieces advanced and the riflemen got under the walls, the fire was still hot, and many were struck by rude missils. Here much of the loss to the allies was experienced. The resistance of these Tartars was finally overcome, and the surrender of other forts followed, but not without some chicanery on the part of the surrender of other forts followed, but not without some chicanery on the part of the Viosroy. CHICAGO MONEY MARKET. The Chicago Tribune of this morning thus refers to the state of the money market posterday:

The money market remains excerellingly unsettled. All the reliable produce bills that offer are promptly taker; but very few of the banks have sold exchanges to-day at any price. Three-perhaps four houses, soid sparingly to best ousdomers at three per cent, premium, and in the afternoon we heard of one that conceded My ner rent, in a few case, but the general rule of the day was not to tell on any terms. As several of those refusing to sell were among our largest houses, considerable inconvenience begins to be felt. No one, of course, can predict what turn events may take, but we see no reason to change the opinion expressed yesterday morning, that the "fluory" cannot last long. A majority of bankers, however, even determined to wait for further developments.

Buying rates of Exchenge were nominal. About 2 to cent, and in some cases 25/62% were the further. The supply of Gold in town is exceedingly limited, and of course there are no settled rates. Three to five per cent, were paid. the state of the money market yesterday;

WHY EXCURNOR IS SO EIGH. \* " The following remarks on this subject, from the Clucionali Gusette, contains some truths that will dries,

Cincinnali Garsite, contains some truths that will come home just now:

Cincinnati has now fully returned her former position as the Exchange market of the West, rates having advanced at Chicago and St. Louis to a standard always fixed by an inflated, unleastily und unreliable corrancy. This we find exchange on New York planty and dull here at an average of % prem, for our corrency, while it is convex and firm at St. Louis at 1 prem, and at Chicago at 1% prem for their currency. Such banks, or we should say, perhaps, such banking as is permitted in Missouri and Illinats, tax the community to an extent that they are not aware of. When a man takes a ddiet bill out there, he gets 98 or 98.0. This depreciation of the currency, for that's what it is, though it is called a premium on exchange, would amount on the exchanges of this city alone to \$1.00,000 per annum. We suppose it is sale to put the cest of inflated banking in Illinois and Missouri at \$2.00,000 ayear. This is bornaby the geopte, if they were laxed that amount directly for the support of banks, there would be a rehellon. When \$2. Louis and Chicago adopt the cherring house system, we shall see the end of this, and not until then.
